"Coach Brinkopf had the most influence on me. As most of the guys who played for him, I was in awe of him. I loved the man. I learned perserverance and giving the total effort to a task from him. I'll always have a special place in my heart for 'Brink'."

SUSAN YVONNE ASKEW, 414 Persimmon Ridge, Arnold, MO 63010. Yvonne is single and is Guidance Counselor at Festus R-VI Middle School. He served as Guidance Counselor and high school coach from 1971-76. Teacher having the most influence: "Miss Sadler, she was an excellent instructor who demonstrated the ability to teach subject matter in a very interesting fashion while at the same time developing positive relations with students. She has been a very good role model for me during my career." Charlie remembers a funny incident involving Mike Bremermann and an accident in Sikeston. Seems Mike tried "to cover up being in Sikeston by staging an accident in Cape. In the cover up attempt he drove to the top of a hill which made a 90° turn at the bottom. Mike's theory was to fail to make the turn at the bottom and slide into a drainage ditch. However, when he made the attempt to miss the turn, he went into the ditch and came right out the other side without any problem. (This probably doesn't seem funny unless you had been there.)"

DANNY BARKS, 1216 S. Kingshighway, Cape. Danny has one son, Kyle, 7. He is General Supt. Southeast Mo. Stone Co. in Cape. The greatest highlight for Danny has been Kyle.

Highlights: "When I met and married Maureen. We have had 17 happy years with our family. Also when I got my degree at SEMO in 1969." Teachers: "I would have two--Bob Goodwin and Leon Brinkhoff. They taught me that an out-of-shape freshman punk, who was a heavy smoker, with the beginnings of a police record, could still straighten up, be a good student and play sports. Without sports I would never have finished high school." Humorous memories: "I can still see Richard Haman making up his own translation of Miss Kreuger's final Latin exam. . . .and getting an A! I never could figure that one out. I was double-dating with Steve Seabaugh. The girl he was with was very nice and it was their first date. We parked at the Arena Park. He instantly got fresh with her and she slapped him silly. We were there for exactly 30 seconds! I went to school four years at SEMO and four years at Central, yet most of my memories are of high school. There is something magical about it. The years have gone by, but I always enjoy reminiscing about our time at Central. Maybe it is because I wouldn't mind being 16 again."

This involves the enforcement of the Outdoor Advertising and Junkyard law in 12 Missouri Counties. Debbie is a Speech Therapist for the Sikeston Public Schools. "I keep busy remodeling the 60 year old, 10 room, 3 bath home, bowling in two leagues - trying to get back the 194 average of 1983 and playing golf in between the seim meets and trying to avoid all the 'honey do's' that Deb has lined up for me."

I was once told by one of my female classmates that I was childish and immature. I would like to thank her for her encouragement. I did not lose hope, my smile has always been my umbrella. Most importantly, the suffering and mitigated joy of self discovery and self acceptance. Most recently, a life partner to share a new home in Santa Monica Canyon, with a fine view of the Pacific Ocean, from which I contemplate the awesome fact that 20 years have passed from whence we were all truly young." Travel to Japan, entering and completing a Half Marathon at age 37, selected in 1974 to appear in *Outstanding Young Men in America*. Humorous memories: "R" rated memories of cruising with the Senior Boys of the talent show, something concerning a large cigar -- ask Mike Gray or Charlie Baldwin for details." That, along with extensive traveling through the U.S., the Pacific area and Europe, point to what I've enjoyed the most, and that is the people. To meet and get to know so many people from all over the world, is a real learning experience. Different cultures, attitudes, and points of view have a tempering effect on your own ideas. Miss Sackman influenced me the most. She taught me that learning could be fun as well as a challenge. Of all my travels and experiences the ones of home are still the best. And to all the other teachers we have lost over the years, how lucky we were to have had teachers we looked up to, wanted to pattern our lives after, and respected. How satisfied they must have felt to have devoted years to us and to know that in spite of our immaturity, inexperience, and impatience, we would somehow make our mark on the world. We were special, we were the Class of '65.

Wibs in Jackson, MO

Five Generations of Steinhoffs have eaten at Wib's BBQ Drive-In

Jackson's Wib's BBQ Drive-in was born in 1947, the same year I was. I don't think my parents took me straight from St. Francis Hospital in Cape to Wib's, but my grandson, Malcolm, was still in diapers when he made his first pilgrimage to the Mecca of Meat.

When we were in Cape last fall, I managed to make four visits to the place, much to my mother's chagrin. On the last visit, I ordered six Brown Hots to Fed-Ex back home to **Son Matt, D-in-Law Sarah and Kid Malcolm.**

Some folks have tried to pack them in dry ice, we've found that's not necessary.

We pick up half a dozen Brown Hots, unwrap them until they cool down (to keep them from getting soggy), put each sandwich in an individual Ziploc bag, then Fed-Ex them overnight to. Heat 'em up and they're good to go. Haven't had anybody die on us yet....

We're pretty sure that at least five generations of my family has eaten at Wib's.

I spent more time at Wib's than Wimpy's

While most of my classmates were hanging out at *Wimpy's* and *Pfisters*, I practically lived at Wib's when I was working for *The Jackson Pioneer* in the mid-60s.

The sandwiches were cheap, the waitresses were cute and they made the best shakes in town. (Unfortunately, they quit making shakes several years ago and the wonderful homemade pies are history, too.)

The waitresses are still cute

Best of all, it was located just down the road from the newspaper and courthouse and almost right next to a small park with a municipal swimming pool that was a great source of wild art.

(Nah, Jackson wasn't THAT wild. Wild art is newspaperspeak for pictures that can run without a story. Think cute kids and animals.)

What's special about the BBQ?

I don't know. My mother claims that no pigs are hurt in the making of the sandwiches, and I have to concede that they are a little light on meat.

On the other hand, what's there is nicely smoked and touched off with a peppery sauce that doesn't overwhelm the taste of the meat. If you order a Brown Hot (the brown, outside, smokier part of the shoulder) with hot sauce, you'd better have a drink handy.

Meat is hickory-smoked

A short history of Wib's is printed on the back of the menu. It was founded by Wib Lohman, who had a trucking company. He started out selling barbecue sandwiches to his drivers.

The original smoker used hickory and nothing has changed.

I took this picture of a robin stealing string out of a mop propped up against a stack of Pepsi crates next to some of the hickory used for smoking the meat on April 13, 1967. The next day, The Missourian ran the photo (or one similar to it) with a long, nonsensical story that was uncharacteristic of the paper. (Follow the link at your own risk.)

The piece didn't have a credit line, but I assure you that I did not write it.

I can only assume that

- Editor John Blue was out of town.
- It was an extremely slow news day.

Note that the Pepsi crates have "Capaha" printed on them. I wonder if that means that they were bottled in Cape or the surrounding area. I know Cape had a Coke bottling plant on Broadway, but I'm not sure about Pepsi.

The outside doesn't look like much

It's just a concrete block building painted white. There's plenty of parking and a walk-up area on one side. The front door was always notoriously hard to open, but that was solved when a local teenager ran into the front of the building June 17, 2008, doing about \$25,000 in damage.

He fessed up to his parents and restitution was made. The front windows were changed to deeper ones and the balky front door was replaced.

One wag remarked, "That poor kid will have to leave town. He's going to be known as the boy who drove into Wib's for the rest of his life."

Wib sold Wib's to the Hoffmeisters in 1948

sandwiches are served.

Wib Lohman got tired of running a seven-day-a-week, 6 a.m. to 1 a.m. business and sold it to Jack and Sweetie Hoffmeister, who ran it until 1972, when it passed on to A.D. Hoffman.

The Hoffmans own it now

It stayed in the Hoffman family when A.D.'s son and his wife took it over in 1986.

Wib's opens at 8:30 a.m. (mostly for coffee drinkers; they usually sell less than 10 sandwiches before 11 a.m.) and stays open until 6:45 p.m. Tuesday through Friday. Saturday they're open 9 - 6:45. They're closed Sundays and Mondays.

Prime time is the lunch rush when about 300

Wib's has a Facebook Fan Page

In the Old Days, the place had four car hops to handle drive-up orders. If you don't want to eat inside, these days you can go inside to a walk-up window to place your to-go order.

Every kid in Jackson must have worked there at one time or another. Many started in high school and continued through college. At least one couple met while working at Wib's and the proposal took place in the parking lot.

Wib's even has a Facebook Fan area with over 800 members.

Fender-Bender at Broadway and Fountain

Looking south toward the Idan-Ha Hotel

I've got a gazillion wreck pictures in my files, but I'm going to run only those that are of unusual vehicles, unusual circumstances or have interesting backgrounds. This fender-bender between a car and a taxicab at the corner of Broadway and Fountain in 1966 fits the criteria. I assume the two guys in the foreground were the drivers from their universal "Oh, Bleep" pose.

The old Idan-Ha Hotel is on the corner. I spent many a lunch hour in the coffee shop there when I was working at The Missourian.

Looking north toward the Marquette Hotel

The Marquette Hotel is on the right and the H&H Building is on the left.

BATHTUB FOR SALE
(GUY IN BATHTUB NOT INCLUDED)

SINCE 1928

Officer Fred Kaempfer directs traffic

I looked at the officer directing traffic and thought I had a shot of him from another occasion. Yep. It was a portrait of a guy with sort of a soulful look in his eyes. I remembered him as being one of the nicest guys who ever wore a uniform.

Wife Lila immediately recognized him from her days working at the Rialto Theater. The only problem was that we couldn't think of his name to save ourselves.

Fortunately, we have house guests from Cape Girardeau staying with us. Lila's sister, Marty Perry Riley (Class of 68) and her husband, Don Riley (Class of 67) are in town for Marty to do a chalk drawing in the Lake Worth Street Pointing festival this weekend. Son Adam's company, DedicatedIT has brought her down the last three years to do the drawings. (It's chilly down here this year, but it's generally not hard to convince her to come to Florida in February with the kind of weather Cape's been having.)

As soon as I showed them the photo, they both said, "Fred Kaempfer." Don had been a Cape police officer himself.

What I didn't know about Officer Kaempfer was that he was a song writer who came up with "Keep Walking On," sung by Ken Roberts, in 1970. Fred died in 2004, at 80. His obituary fleshed out his life. He worked at Leming Sawmill for 25 years, was a Cape policeman from 1965 to 1973, and was a Scott City policeman from 1973 until he retired in 1978.

A letter to the editor in *The Missourian* after his death pointed out something else. *Few know that during World War II Kaempfer fought in five major campaigns: Sicily, Central Europe, Normandy, Rhineland and the invasion of France, where he was awarded the Medal of Freedom.*

View to the east shows First Federal Savings and The Southeast Missourian

It was a hot day in 1966, if the temperature sign on the First Federal Savings is correct - 88 degrees. This is quite a contrast with a Frony picture taken at the same intersection during a snow storm when the temperature was 28 degrees on the sign. You can see it in Fred Lynch's *Southeast Missourian* blog.

Notice the phone number on the side of the cab: ED. 5-4433. ED stood for Edgewater. Jackson was the Circle exchange.

You can see *The Missourian* Building and the Royal N'Orleans, but the KPVS tower hasn't been built yet.

The Idan-Ha is gone

The Idan-Ha Hotel caught fire a couple of times and was torn down. Here's what it looked like on Oct. 24, 2009.

The Marquette Hotel escaped the wrecking ball

The future of the Marquette Hotel was very much in doubt for many years, but it looks like it's taken on a new life. The canopies over the doors were more interesting when the building was a hotel, but, overall, the building looks better than it has in decades.

Note the KPVS TV building sticking high up into the sky.

I believe the Fred Kaempfer of whom you speak was from my Great Uncle Emil Kaempfer Family. Uncle Ame as we called him ,was the husband of my Paternal Grandmother's sister, Grace Visner Kaempfer. I was a young child when my Great Uncle passed. My brother Howard Lee Parker deceased at age 7 in 1947 is buried in the Kaempfer family plot. His plot was given to my parents by them with the promise that he would never be moved. I learned in 1994 after an inquiry to the open plots that they were owned by Fred & Ruby Kaempfer...who rest beside my brother...I did not know Fred...wish that I had...but thanks to you I know now that although I was not able to put our Mother beside him, that his earthly remains are in good company to the left & rightthank you once again!

I had the privilege of knowing Fred and his brother Gerald (who by the way is still living) Fred was a great guy, I rember when he patroled on main street him and another cop always had candy to give to kids, Both Fred and his brother Gerald were great Guter pickers, they would come to my parents house (Jake and Lucille Rehn) and all of them would play and sing for hours...

Who in the world owned a Checker in Cape???? and what are the odds of wreaking it in the middle of down town?

The Marquette does look pretty good these days...Lba and I went to top floors to check: it out last year and they do have a nice room with a great view, for great cocktail party (or kegger for types like ken and me). The place was built like a fort.

I remember that Merrill and Darrell Lewis used to run the elevators at night at the hotel, they were only run by an operator in those days!

Thanks for sharing!

Does anyone else remember the Lady Cab Driver in the 60's....Flo the Cab Driver....I believe she might have drove a Checker Cab like that & dressed very masculine with the authentic uniform & billed hat like doormen wear at grand hotels....it seems to me she might have provided for her children as a single or divorced Mom driving that cab, so the story went ...or was Flo from another town I lived in...Can anyone confirm Flo or is this memory from another town or another life or Another World the Soap!

Ken Steinhoff February 19th, 2010 at 12:22 pm · Reply

Libby,

You remember correctly. Flo drove a cab in Cape and she dressed as you described.

I'm not sure I ever photographed her. She was an intimidating character.

Ken Steinhoff February 19th, 2010 at 12:44 pm · Reply

Terry,

Checkers were the choice of cab companies all over the country. They were built to be indestructible and to have plenty of room for passengers and luggage. I talked to a guy down here who bought one for personal use. He said it would outlast him.

Talk about odds? I worked a hit and run between a Rolls Royce and a Bentley where a stretch limo chased down the car that split. Of course, that was down here where Rolls are about as common as Chevies back home.

Ken the phone number on the cab is 5-5533. If you enlarge the picture you can see it better. I really enjoy your pictures as well as Fred's.

Thanks

I remember Flo. She was the only lady cab driver I ever saw. She was a fixture in Cape.

Yeah, Flo did have an intimidating presence. I worked for a short time as a waitress at Sunny Hill Restaurant on West End Blvd and she often came in for a break. One day I had just served her a platter of French fries when she called me over and there in the middle of the fries was a big black cockroach. She asked me if we charged extra for meat? Humiliated as only a 15 year old could be, I was rescued by the manager who deeply apologized, called the cook to task and offered her a free substitute. Actually, Flo was pretty decent about the whole disgusting event. In later years I learned that unscrupulous people can bring their own insect into an establishment in order to get a free meal, not that that was likely the case with Flo. She was a regular patron and continued even after that day.

Speaking of dning experiences...I had been in a San Jose, CA, training class for two weeks. On the day I was supposed to leave to go home to FL, I saw that a weak hurricane was headed to West Palm Beach, so I tried to get on an early flight back. By the time I got to Houston, all flights were canceled, so I had to stay there overnight.

Here's a message I sent to friends, family and the hotel chain after I got home:

Oakley's Restaurant at 15747 John F. Kennedy Blvd., Houston, TX 77032, was almost empty when I arrived, but it took several minutes for the greeter to see and seat me. I decided on the Bayou Catfish order with garlic mashed potatoes, cole slaw and iced tea. The waitress brought a basket of bread. I didn't have high hopes for hotel food, but this was really good. The tea was freshly brewed and also tasted great. Californians don't know how to make good tea, so this was the first good glass of non-flavored tea I'd had in two weeks.

The main course took a while to get there (good cooking takes time, you know, so I wasn't concerned), but, when it arrived, it looked great. I'm a little weak on cooking terms, but the fish was covered with some kind of browned corn-meal-looking stuff. The waiter asked if I'd like some lemon with it. I said that would be wonderful.

He disappeared and I took my fork to cut into the fish. It didn't cut cleanly. In fact, it didn't cut at all. I touched the white, translucent flesh. It was freezer-cold.

When the waiter came back, I said, "This fish ain't even close to being cooked. It had a higher temperature when it was swimming in the bayou." He took the plate and walked toward the kitchen holding for the cook.

The waitress came back and promised that the fish would be replaced. "It's on the house," she said. I told her that was more than I expected, but, "Thanks."

When the plate came back a few minutes later, the fish was some of the best I've ever eaten. It was cooked perfectly. I took my first forkful of garlic mashed potatoes and found that they were excellent, also.

Then my eye went to something in the middle of the potatoes. Something dark and upotato-like. I tentatively stretched one tine of my fork to the corner of it and pulled. A long, black hair pulled out of the center of the potatoes. When I released it, it curled back like a spring. I continued to eat the fish.

When the waitress came by to see how I was doing, I told her that the catfish was excellent and the first bite of potatoes was very good. Then I pointed out the long, black hair coiled up in the middle of the potatoes. "Mam," I said, "you've already comped out the meal. I assure you that I wouldn't have wasted a hair that good on a meal that was already free. It came that way."

"Would you like fries with that?" she asked, clearly mortified.

"No, I don't think I can handle any more surprises," I answered.

"Would you at least like for me to remove the potatoes from your plate?"

"No, I feel more comfortable if the plate never leaves my sight. I'll just eat the fish."

A few minutes later, she came by and asked if I wanted to take a chance on the desert cart. "I'll understand if you don't," she said.

"Sure," I said. "I'll just eat with my eyes closed." For the record, the chocolate pie was great.

That was a great story. I laughed so hard that it brought tears to my eyes!

Ken Steinhoff February 22nd, 2010 at 10:17 am · Reply

Thanks, Trace.

If you spend a lot of time on the road, it's easy to build up a collection of those stories. I enjoyed sending complaint letters like this when I got a chance. I always figured there was some poor schmuck having to read gripes all day long, so this was an opportunity to let him go home and say, "Hey, Maude, you'll never believe what I got today."

I had a general manager who joked that she should have me write all of her "Dear Sir, you Our" letters. At least, I THINK she was joking.

Flo operated her own cab company and was not part of the other company in town.

I don't remember the cross street but it was a house that above the street on William across from the coal company near the Missouri Pacific tracks that's crossed William.

Shw was indeed one of a kind, and way ahead of her time!

Dennis,

Sharon Sanders, The Messorian librarian, sent me a couple of links about Flo.

<https://news.google.com/newspapers?id=W20fAAAAIBIAJb&sjid=INEAAAAIBIAJ&pg=2675,2809109&dq=flo+cab&hl=en> is a story when Flo retired.

<https://news.google.com/newspapers?id=9JEfAAAAIBIAJb&sjid=WdEAAAAIBIAJ&pg=5581,80770&dq=flo+edwards&hl=en> is Flo's obituary. She died June 29, 1986, at 85. The short obit was probably done by someone who had never heard of Flo the cab driver.

Thanks for Sharon, who does a great job with the Out of the Past column and feeding facts to Fred Lynch's Frony series. Newspaper librarians have been some of the most interesting and helpful folks I've ever worked with. They fill in the institutional memory that's lost when old-timers retire, die or move on. Sadly, their work is seldom recognized.

I worked with Fred on the Cpae Police Department and he was one of the kindest persons I ever knew! He was very patient with this "Rookie" and taught me many things. I was really saddened at his passing.

Ken and Lila, Thanks for the trip to the past. I remember Flo,yes I did have to take a cab here and there sometimes...Also I knew Fred the cop (even before he became my brothers Father in law) He was kind and was never judgmental. Handsome too.

Ken Steinhoff February 22nd, 2010 at 7:50 pm · Reply

Marge,

I'll have to tell Lila she remembered the Fred connection correctly. Of course, I learned the correct answer from the very get-go is, "yes, you're right."

If that turns out NOT to be the case, the fail-back answer is, "I must have heard you incorrectly the first time."
